

Amonye Yemisi

Frontend Developer

Proficient Frontend developer with 3 years expertise in Typescript, JavaScript, HTML and CSS. Skilled in modern front-end frameworks and adept at leading teams to deliver high-quality web applications. I am driven to excellence and contribute my skills to creating captivating and user-centric web applications and interfaces.

Experience

Sept 2022 - PRESENT

Stanlab | Remote

FRONTEND TEAM LEAD

- Collaborate with UX/UI designer and back-end developers to deliver high-quality web application.
- Translated UI designs into fully functional web pages, ensuring seamless user interactions and intuitive navigation.
- Implementation of an innovative artificial intelligence-based question generator feature, which significantly enriched the product's capabilities and user engagement.
- Implement responsive designs and optimized web performance
- Ensured the functionality and responsiveness of web pages across various devices, employing best practices in responsive web design.
- Conduct code reviews and provide mentorship to team members, enhancing overall team efficiency.
- Actively collaborate with the marketing team to gather and analyze customer feedback, leveraging insights to improve the product's usability and address user needs effectively.

Oct 2021 - Nov 2022

Wootlab Innovations

SOFTWARE DEVELOPER

- Design and development of the comprehensive Nigeria Jubilee Fellowship Programme software application platforms. This encompassed creating a diverse range of platforms, including the application platform, administration platform, alumni platform, e-learning platform, and monitoring and evaluation (M&E) platform. Additionally, successfully integrated multiple backend APIs to ensure seamless functionality.
- Developed and maintained web applications using cutting-edge technologies, such as HTML, CSS, JavaScript, TypeScript, ReactJS, Redux, and Next.js, by leveraging these tools, I ensured an engaging and intuitive user interface.
- Played a pivotal role in ensuring project clarity and success by meticulously preparing Software Requirement Specification (SRS) documents for various software development projects. These documents served as a vital reference point for all stakeholders, facilitating effective communication and project alignment.

May 2020 - Dec 2022

BRACE | (Part time / Contract)

WEB DEVELOPER

- Developed multiple websites using a combination of HTML, CSS, JavaScript, and WordPress.
- Created custom WordPress template to cater to design and functionality requirements.
- Spearheaded the setup and configuration of WordPress websites, while also fulfilling additional client requests, ensuring their satisfaction with the final product.
